PAST WORKING PROJECT

1	Project	:	**Just Visit Online** https://www.justvisitonline.com/
	Technology	:	CodeIgniter and Mysql
	Role	:	Development

Description: Just Visit Online
Just Visit Online business directories are here to stay, and every business should know where they need to be listed. Creating local business listings is the main work of any local business marketing campaign. Local Business Listings give more visibility for your business and every new listing that you create enhances your chances of being found online by customers. If your business is visible online, search engines trust the accuracy of your business data and thus, your chances of ranking on top for local searches shoot up. To simplify it all, business listings can be considered as an online version of business information in Just Visit Online.
